

**Be creative.
Be inspired.
Be connected.
In our new global
neighbourhood.**

HYBRID EVENTS GET THE BEST OF BOTH WORLDS.

So what exactly does hybrid mean? A hybrid event is a live event with in-person attendees and virtual attendees at the same time - usually with live streaming. It can be anything from a small board meeting, up to a huge conference. That's the beauty of a hybrid event: it allows more attendees to connect and share information across the globe. More people, but a smaller carbon footprint. It's a win-win.

- High-speed internet
- GDPR-compliant internet infrastructure
- Crystal clear microphones
- Top-quality video cameras
- Experienced onsite technical support
- Partnering with renowned AV experts
