THE DIGITAL PLAYGROUND REQUIRES EXPERTISE. WE'VE GOT YOU COVERED...

So what exactly does hybrid mean? A hybrid event is a live event with in-person attendees and virtual attendees at the same time - usually with live streaming. It can be anything from a small board meeting, up to a huge conference. That's the beauty of a hybrid event: it allows more attendees to connect and share information across the globe. More people, but a smaller carbon footprint. It's a win-win.
